

Tina's
Compendium

Of
Events
1997-2020

by Bettina von Schweinitz

Introduction

Starting in 1997 I began to keep a list of events that I might like. On these lists I indicated if I actually “done” the event. Each year more events came onto the list.

I have created this compendium, so that I have a reference when writing other compendiums. These event lists come in handy when finding when a photo was taken, or when a significant event occurred. Memory is not dependable after awhile.

Year 2007 is missing and I do not know why.

Year 2009 is missing, but I was in Texas with my parents from 2008March-2010April

Years 2015-16 are missing because I was busy taking care of Papa and Mutti.

In 2017 I started going back attending events.

Years 2018 and 2019 are missing, because Mutti’s health was declining.

By 2020, I was ready to begin attending events again. I made up a suggestion list. But in late 2019, COVID19 pandemic hit. It was just getting worse. Everything was shutting down and everybody feared any socializing. The pandemic fear reaction did not recede until 2022. By then I was living in the Conservatory of North Austin. They had a fitness instructor and activities director hired full time, just to keep us busy all day. No need to find outside events anymore.

I continued these events sheets
