

Hans' Graphic Design Course 1974

By

Helga von Schweinitz

Introduction

While stationed in Maxwell AFB Alabama, has entered the bootstrap program so that he could finish his Bachelor's degree. Since entering the Air Force, Hans had been taking courses either on the local base or through correspondence from University of Maryland. By 1974 he only needed to take a full load of courses for two semesters to complete his Bachelor's degree in Mathematics. Hans attended Auburn University in Alabama.

One of the courses he attended was about Graphic Design. This little booklet is just a collection of the designs Hans submitted. The course did end with an art studio display of many of the design from multiple students as selected by the Professor. Several of Hans' designs were selected for this display.

Photos

Hans at his home desk studying. Desk was made from a door held up by cinder blocks.

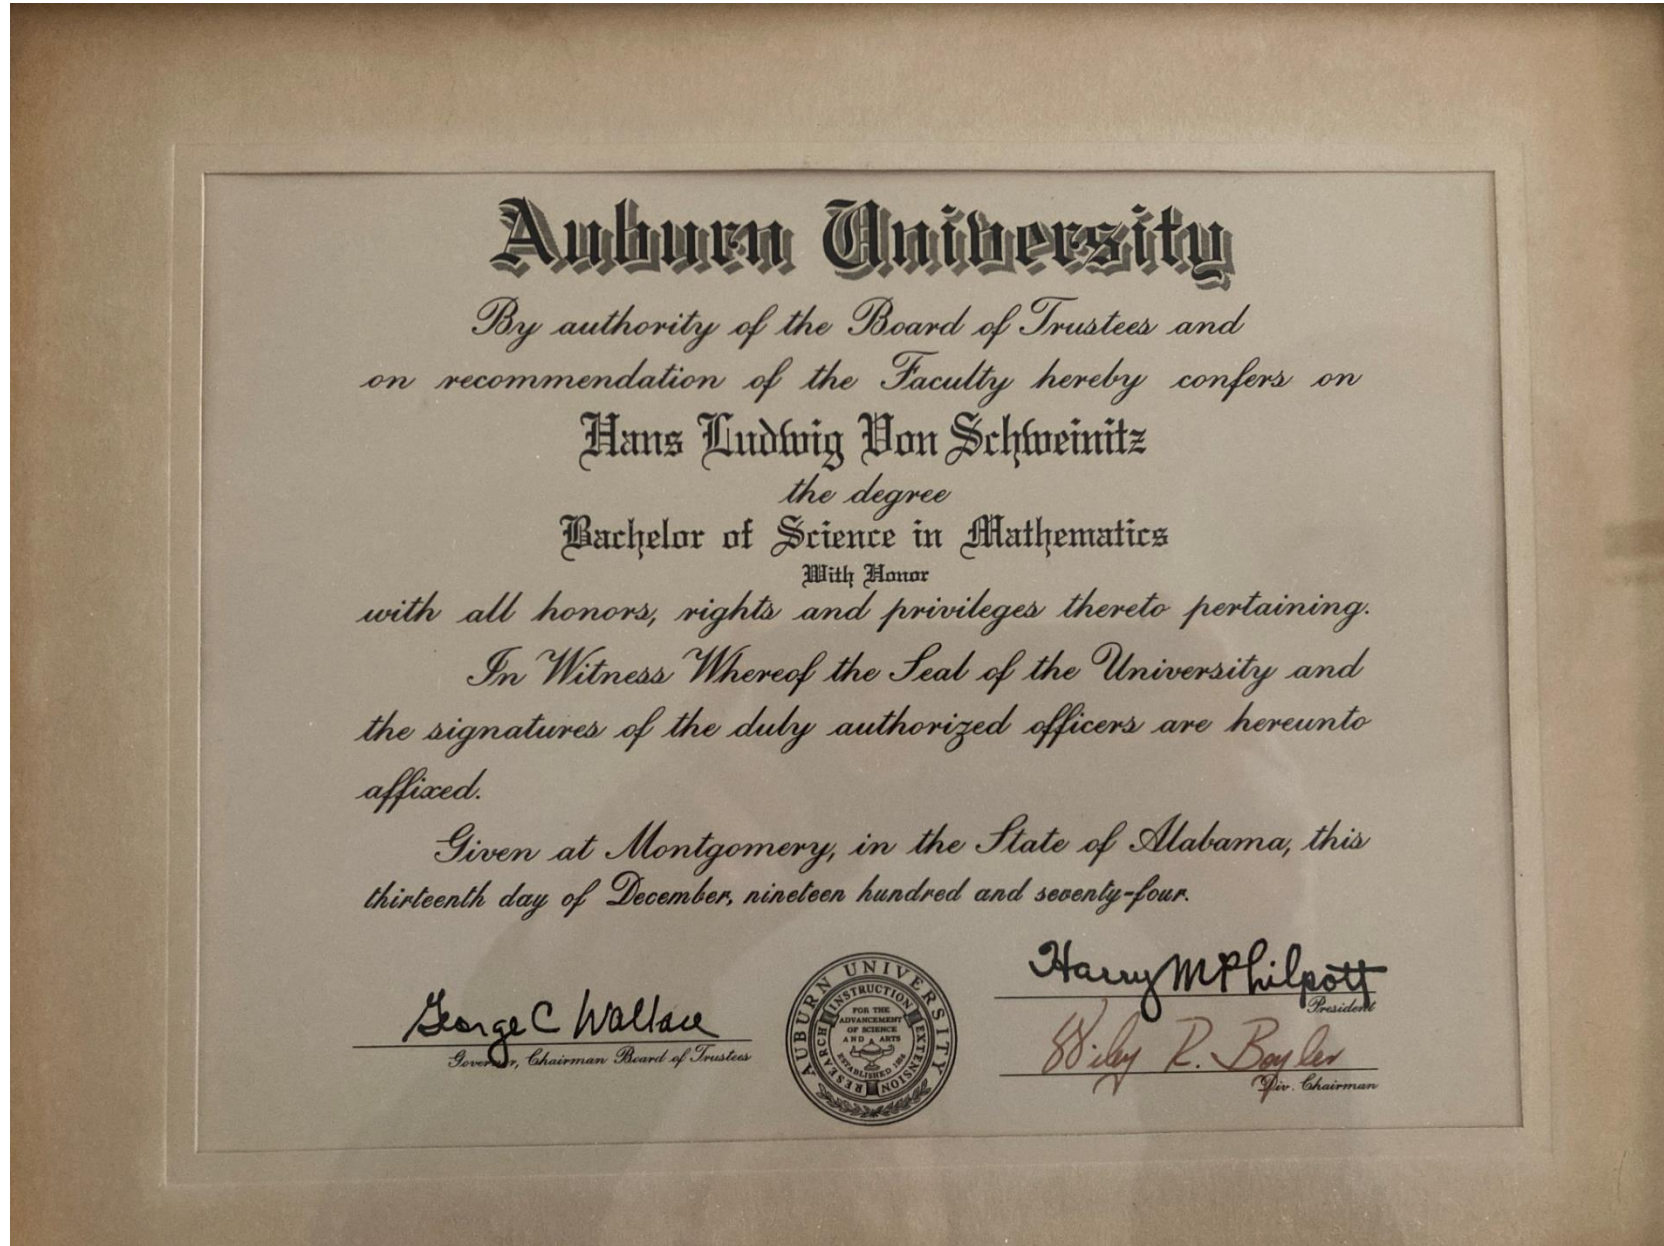

Being a photographer, Hans couldn't resist posing the family dog "Dandy" with his nose in Hans' college books.
